Forest Fire Warden's Report

The 1941 fire season was the worst on record in the State of New Hampshire. More fires occurred, more area was burned over, greater damage was done to our woodlands, higher losses were sustained in other real property burned and the cost of suppressing fires was greater.

There will, perhaps, never be more ideal conditions for fire than existed in 1941. A scarcity of rain left the forests in a highly inflammable condition. The accompanying high winds spread fires with almost lightning rapidity through the parched forest lands. These conditions, coupled with human carelessness, made 1941 outstanding in the state's forest fire record.

As we approach the 1942 fire season, we wonder just what may be in store for us. The woodlands are in as critical condition as they were last year, if not more so. Blown down trees still clutter sizeable acreages of our woodland areas; the increased tempo in lumbering operations due to war demands is each day, adding to the fire hazard an ever increasing number of acres of slash land; and we face the coming fire season with greatly reduced personnel, due to the shifting of men from our small communities into the armed forces of the country and into defense industries. If, however, everyone will be careful, if they will follow the rules and regulations laid down for the use of fire in and around woodlands, much of our difficulties will be eliminated—our fires kept few in number with a consequent saving of expense to town and state.

There are so many possibilities for trouble this year it will require the whole-hearted and patriotic cooperation of everyone concerned if we are to avoid serious difficulties. Persons hostile to the best interests of our country and subnormal individuals affected by the excitement of the times may easily cause tremen-

dous confusion and disruption of local activities by deliberately starting fires in our woodlands. Suspicious circumstances connected with every fire should be made known to the proper authorities. Wardens and Deputies are being instructed this year to investigate all fires carefully. Parties at fault will be held strictly responsible. With our forces weakened, it becomes more necessary for everyone to comply with regulations which have been set up to govern the use of fire in our woodlands. These are briefly as follows:

1. Secure a permit from your local forest fire warden to burn brush or other debris in or near woodlands, or where fire may be communicated to such lands, once the snow has left the ground. Violation of this requirement makes the responsible party liable

- a. To a fine not to exceed \$500.00 or imprisonment of not more than one year or both.
- b. To the town for expenses incurred by the warden in attending or extinguishing such fire.
- c. For damage to abutting owners if fire runs upon abutters' property.

2. DON'T drop or throw from any vehicle while same is upon a public highway or private way and

DON'T drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire.

Violation of these prohibitions penalizes whoever is found guilty with a fine of not more than \$25.00.

3. DON'T fail to promptly notify your local warden of any fires you see.

The 1941 fire record for Barrington is as follows:

Number of fires,	12
Acreage burned,	106
Cost of Suppression,	\$197 92
Number of Permits issued,	9

Report of Superintendent of Schools

To the School Board and Citizens of Barrington:

The school enrollment for the present year is as follows:

<i>Room and Grades</i>	<i>No.</i>	<i>Teacher</i>
Primary, I and II,	33	Miss Rowena F. Newell
Intermediate, III and IV	30	Miss Rita C. Stewart
Grammar, V and VI	37	Mrs. Grace H. Brock
Junior, VII and VIII	26	Mr. Nicholas Megas,
	—	Principal
	126	

The school has been cooperating with the defense program. A small shelter has been built in the school-yard by the defense authorities for airplane spotters, and the facilities of the schoolhouse are available for the personnel twenty-four hours a day, including the telephone and extension newly installed. An interior portion of the school building has been designated as a shelter for pupils, and air-raid drills held. Special instruction is given to the pupils on personal and home safety, first aid, and interpretation of world events and national citizenship as related to every age-group. Parents are requested not to telephone to the school or come for pupils during an air-raid alarm, should one take place.

The hot lunch program has been enlarged with the cooperation of the Federal Surplus Commodities Distribution and the Works Progress Administration. A sink recently installed in the Practical Arts room has already proved to be extremely useful. The services of Mrs. Marie Angell have been secured without cost to the district, to have charge of cooking and serving

the lunch. She is under the supervision of Mrs. Dorothy S. Creath of the W. P. A. The required district contribution of \$5 per week is met by the furnishing of building facilities, maintenance costs, and supplies furnished by parents and others. A small district appropriation would be a help to meet cash outlay items.

Through the generosity of the late Miss Gladys Berry of Dover, formerly of the Green Hill section of Barrington, the School District has received a legacy for school purposes amounting to \$551.

A beginning has been made in the furnishing of playground apparatus. The School Board has purchased a climbing "Gym" for out of doors, while the Parent-Teacher Association, under the leadership of its president, Mr. Emrick Erickson, built a well-constructed sand box, which is much appreciated by the younger children. The P. T. A., together with the Woman's Club and the Grange, also sponsored the Dental Clinic, held last May under the direction of the School Nurse, Miss Margaret Macdonald, with Dr. C. H. Manning as dentist. The Nurse also made available the services of an orthopedic clinic, and in April tested the hearing of all pupils with the audiometer, besides making her regular examination and home visits.

While the special services of the schools are of striking value, the regular work of classroom instruction is carried on as the main work of the school. Two of the teachers, Miss Newell and Miss Stewart, attended at their own expense a University Extension Course held in Rochester on the subject of Individual Differences in Reading, given by Dr. Donald D. Durrell. Mrs. Grace H. Brock attended the full Summer School Course at the University of New Hampshire. Our teachers deserve great credit for being willing to use their own time and money for professional improvement to benefit their work with Barrington children.

The third eighth-grade class to graduate from the new school held their exercises in the auditorium of the school building on the evening of June 17, 1941, with the following:
